What's Going On At The Club

We're thrilled to share with you the latest activities happening at the Club as we welcome our members back after the Christmas break. It's been a joyful time of learning, creating, and having fun! Our members have been actively participating in our Academic Success and Workforce Development programs, where they've been enhancing their skills and preparing for the future. Whether it's tackling schoolwork or developing career-ready abilities, they are making great strides.

In addition to these educational programs, many of our members have been busy in the art room, crafting holiday decorations and exploring their creative talents. It's been a fantastic way for them to express themselves and engage with one another. Others have enjoyed some friendly competition in the gym, playing basketball and staying active.

We are so excited to see our club members back after the break, and we hope they had a restful and joyful holiday.

Boys & Girls Club Mission

Inspire and empower young people by offering meaningful opportunities that will enhance the quality of life for youth, especially those who need us most, to realize their full potential as productive, responsible and caring citizens.
